PROFESSIONAL SUMMARY

React Native Developer with hands-on experience building modern cross-platform mobile applications using React Native, Expo, Expo Router, TypeScript, and NativeWind. Skilled in responsive UI development, reusable components, authentication flows, navigation, and state management. Seeking a React Native Frontend Internship.

PROJECTS

1: Villa – Real Estate Mobile Application

React Native • Expo • Expo Router • TypeScript • NativeWind • Zustand • Clerk

- Designed and developed a role-based mobile application for Buyers and Brokers.
- Built responsive UI with reusable components.
- Implemented Google Sign-In and authentication flows.
- Developed search, filters, saved properties, and featured listings.
- Created Broker screens for Add Property, Edit, My Posts, Mark as Sold, and Delete.
- Integrated image picker (up to 6 images), maps, and WhatsApp contact.

2: ExCloth — Full-Stack Fashion E-Commerce Mobile App

React Native CLI, JavaScript, NativeWind, Supabase, PostgreSQL, React Navigation

- Developed a full-stack fashion e-commerce mobile application with authentication, product categories, search, wishlist, cart, shipping address management, checkout, notifications, and order tracking.
- Integrated **Supabase Authentication and PostgreSQL** for user accounts, product data, inventory, addresses, orders, and real-time application data.
- Implemented product variants including **size, color, SKU, pricing, and stock validation**, along with COD and demo payment flows for Card, Easypaisa, JazzCash, and Bank Transfer.
- Built reusable React Native components and structured navigation flows while maintaining a responsive, modern UI using **NativeWind/Tailwind CSS**.
